

Customer Orders Shipped by Rep

PROGRAM NAME: ANATELES

MENU OPTION TITLE: Customer Orders Shipped by Rep

MAIN MODULE: TELEMARKETING

HELP KEY ACTIVE: NO

PROGRAM OVERVIEW

This program creates a report, viewable to screen or printer paper. The information contains a list of orders SHIPPED for the time period defined in the program. This information could be used to monitor performance of a sales person towards a quota set forth by sales management for a particular period of time or a given part number.

PROGRAM OPERATION

ENTER BEGINNING PERIOD DATE: Type the date to define the starting point of your report.

ENTER ENDING PERIOD DATE: Type the date to define the ending point of your report.

ENTER PRINTER # TO USE: Here you can send the report to a screen to view or to a printer to see the entire report on paper. When the program finishes the print command, you will automatically go back to the options menu.
