Global Customer Group Change

PROGRAM NAME: CMCHGGRP
MENU OPTION TITLE: Global Customer Group Change
MAIN MODULE: CUSTOMER ACCOUNT FUNC.
HELP KEY ACTIVE: YES

PROGRAM OVERVIEW

This program allows you to change a group code name in a range of customers to another group code. Both codes must be valid in the group code database.

PROGRAM OPERATION

ENTER OLD GROUPING CODE: If you leave this line blank, then you will be entering in a new code for customers that do not have a code!

ENTER NEW GROUPING CODE: If you leave this line blank, then you will be removing an old group code. All customers that have the old code you do not want will have a blank group code.

BEGINNING CUSTOMER ID:
ENDING CUSTOMER ID: Leave these two line blank to change all customers with said group code.

MANUALLY CONFIRM EACH CHANGE (Y/N)? You can go automatic or confirm each change individually. The program will load <N>.

Is this information correct (Y/N)?
