Print SE# Books Selectable

PROGRAM NAME: FEDPRNT2
MENU OPTION TITLE: Print SE# Books Selectable
MAIN MODULE: SERIAL# REPORTS
HELP KEY ACTIVE: YES

PROGRAM OVERVIEW

This program generates a printed chronological report of all entries within a specific serial number book based on a range of serial numbers. You will select which book and the beginning and ending range of serial numbers. The report includes: Manufacture, model, serial #, Model/Description, caliber, received information and sold/ship to information. This database is an independent file that is required for compliance with BATF regulations. The report pulls information from the database {FEDBOOK.DAT} only and will need condensed print because of the detail.
