

Enter/Edit MFG Forecast

PROGRAM NAME: FOENTMAN

MENU OPTION TITLE: Enter/Edit MFG Forecast

MAIN MODULE: MRP

HELP KEY ACTIVE: YES

PROGRAM OVERVIEW

This program allows you to enter in the Master Production Schedule. You are required to enter in quantities per month. You can use <F3> to view all parts in the Master Sales forecast. You can recalculate the quantities after you have made changes by using <F7>.

PROGRAM OPERATION

Part Number: The first screen will display the part number and description, the finished cost, and the dealer price. Enter a part number, or use <F3> to view all parts in the Manufacturing plan entered so far. Twelve months of manufacturing quantities will display on the first screen.

Press F8 to enter daily quans or RETURN to save This will come up after you press enter on the part number you wish to work on. When you do, the second screen will display. This is where you will enter in the manufacturing forecast, per day per month. At this time you can <A>dd, <E>dit, <D>elete, <S>ee more, <R>ecalculate, or <Q>uit the entry screen. You can use <F7> in the second screen to change months. You will be required to fill out the day and quantity.

<F6> will allow you to delete the entire part. You will be prompted, "**DELETE ALL ENTRIES FOR THIS MONTH <Y/N>?**"
