Print Parts Breakdown

PROGRAM NAME: FOPRINT
MENU OPTION TITLE: Print Parts Breakdown
MAIN MODULE: MRP
HELP KEY ACTIVE: NO

PROGRAM OVERVIEW

You can use this program to output the calculated parts breakdown. Remember, it is only as accurate as the last time the breakdown was calculated. The report consists of part number, part description, the finished quantity, raw quantity, and the amount on order. The finished quantity consists of the collection of all finished quantities per the part master file, work orders, and subassemblies. The same is true for the raw inventory reported here.

PROGRAM OPERATION

ENTER PRINTER # TO USE : < > You can choose any one of the pre-defined output methods.

IS THIS CORRECT <Y/N>?

PRESS RETURN TO BEGIN, ESC TO ABORT You can hit escape at any time to stop the report.
