

## Create Customer/Parts Discount

**PROGRAM NAME:** INCUSREF

**MENU OPTION TITLE:** Create Customer/Parts Discount

**MAIN MODULE:** CUSTOMER ACCOUNT FUNC.

**HELP KEY ACTIVE:** NO

### PROGRAM OVERVIEW

You can use this program to define a specific discount on any part for any customer. The price set will display in the pricing window during the sales system item processing. You can define a fixed dollar discount or a percentage discount.

There is an <F7> options menu present for valuable interface with supporting programs.

### PROGRAM OPERATION

**CUSTOMER ID:** Enter a valid customer ID. You can use the <IFF> functions in this field to find the customer. The customer name will appear once you return on the ID field.

When you enter past the name field, the cursor will drop to the bottom of the screen and present you with the following options:

**(A)dd, (C)hange, (D)elete, (S)ee more, or (Q)uit?** You can use the up and down arrow keys to highlight any line item you wish to delete or change.

**PART NUMBER:** Enter a valid inventory part number. Now, do not enter in a sales package because it will not activate the discount during sales entry. However, you can enter in a custom part.

**DESCRIPTION:** The description of the part will appear after entry of the part number.

**TYPE (%/\$):** You can choose either a percent discount or a dollar discount.

**PRCNT:** The program will load "%" by default. If you choose this you will be allowed to enter in a percent discount for that specific part.

**AMOUNT:** If you choose "\$" for the dollar discount, then you will be allowed to enter in a dollar amount of discount.
