Parts List w/On Order No Detail

PROGRAM NAME: INLST1
MENU OPTION TITLE: Parts List w/On Order No Detail
MAIN MODULE: PARTS/RPTS GENERAL
HELP KEY ACTIVE: NO

PROGRAM OVERVIEW

This report gives all status of current inventory. The following fields are supported in this report. They are:

          1) {PART #}
          2) {PART DESCRIPTION}
          3) {RAW}
          4) {WIP}
          5) {FIN}
          6) {ON ORDER}
          7) {REORDER POINT}
          8) {FULL STOCK}

PROGRAM OPERATION

FROM PART #: Select the part number for this report and press <ENTER>. This will be the beginning part number.

TO PART #: In this field you can determine the range of part numbers for your report. If you want just the part number from the previous field you must type that part number in this field. If you want a part list greater than the one part, type in the ending part number of your list and your report will include those parts only. For the complete inventory list <ENTER> through this field and all parts will show on the printout.

ENTER PRINTER # TO USE: < >: You must select a valid printer number from your system printers. As with most IBS reports, our recommendation is to use a wide carriage printer for ease of viewing.
