

Update Shipped Orders

PROGRAM NAME: SAUPDATE

MENU OPTION TITLE: Update Shipped Orders

MAIN MODULE: MANIFEST PROCESSING MENU #1

HELP KEY ACTIVE: NO

PROGRAM OVERVIEW

This program is used to update all orders that are entered on a manifest that has been moved to history. By running the program, the manifest number, shipping charges, C.O.D. tag number if applicable, total charges including shipping will be attached to each order entered onto the manifest. This gives you a total per order so you can generate a true total for customer billing. THIS PROCEDURE MUST NOT BE RUN UNTIL ALL OPEN MANIFESTS HAVE BEEN MOVED TO HISTORY. If not, any orders on other manifests that have not been sent to history, will be updated without any manifest information and you could be locked out from completing your job on time.

PROGRAM OPERATION

UPDATE THE ORDERS THAT HAVE BEEN SHIPPED? : Y
