

## **Inventory Detail Gut Program**

**PROGRAM NAME:** SYSINGUT

**MENU OPTION TITLE:** Inventory Detail Gut Program

**MAIN MODULE:** PARTS PRICE MAINTENANCE MENU #1

**HELP KEY ACTIVE:** NO

### **PROGRAM OVERVIEW**

This program is a quick fix program. It accesses all raw data, of every valid part in your system, created behind the scenes as transactions occur while running the software. This program does not leave any trails for the purpose of true accounting trackability, so caution should be used when editing any of these fields.

NOTE: This program is password protected to keep prying hands from deleting information.

### **PROGRAM OPERATION**

**PARTNM:** Type the part number to be edited. Either type in the actual part number or <PageUp> or <PageDown> to locate the part number you need.

You can view information or <ENTER> through the fields to get to the field you want to change. Type the new information and <ENTER> to the bottom of the screen.

**PRESS RETURN TO CONTINUE**
