Create Inventory Detail

PROGRAM NAME: SYSINVEN
MENU OPTION TITLE: Create Inventory Detail
MAIN MODULE: PART PRICE MAINTENANCE
HELP KEY ACTIVE: NO

PROGRAM OVERVIEW

This program reads through the inventory file and compares the on hand quantities to the costing system buckets in {SYSINVEN}. If the on hand quantities are greater than the quantities in the costing buckets, records will be created in {SYSINVEN} to ensure that there will be enough costing buckets to do costing properly.
