

## **Labor Efficiency Report**

**PROGRAM NAME:** WOLABOR  
**MENU OPTION TITLE:** Labor Efficiency Report  
**MAIN MODULE:** W.O. TIME TRACKING  
**HELP KEY ACTIVE:** NO

### **PROGRAM OVERVIEW**

This report is a collection of updated time from the IBS automated time input system for all employees. The report breaks on each employee per day and shows total hours worked per employee. It includes an efficiency rating at the end of each day per employee and at the end of the employee. There is a total efficiency summary at the end of the report for the total time frame reported. The efficiency rating is a calculation of direct labor usage compared to total hours. This can be used to determine the actual effectiveness of work order planning and labor utilization against work orders. HOW MUCH ARE WE USING OUR MANUFACTURING EMPLOYEES AGAINST ACTUAL INCOME PRODUCING WORK?

### **PROGRAM OPERATION**

**BEGINNING DATE FOR REPORT:**  
**ENDING DATE FOR REPORT:** These fields define the date parameters for this report.
